PASSED AUDITS (25)

Show

Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

AUDIO AND VIDEO

<input type="radio"/> <code><video></code> elements contain a <code><track></code> element with <code>[kind="captions"]</code>	▼
--	---

These are opportunities to provide alternative content for audio and video. This may improve the experience for users with hearing or vision impairments.
